10

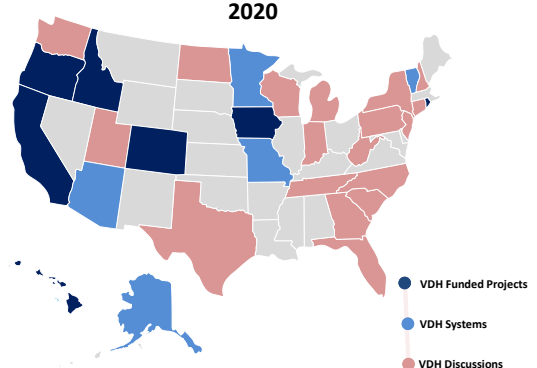

Telehealth-Connected Teams and Virtual Dental Homes Key Outcomes

- Reach people, emphasize prevention, and lower costs
- Majority of people kept and verified healthy on-site
 - About 2/3 of children had all needed services completed by dental hygienist

Addressing Barriers to Adoption

- Awareness
- Policy
 - Can it be done
 - Licensure/scope of practice?
 - Is it paid for?
- Implementation challenges
 - even if people are aware, and it is allowed, and it is paid for, there are still numerous implementation challenges in doing something different than what is now the mainstream approach to oral health.
